

Dear Valued Countrywide Customer,

We are writing to make you aware of changes to United States trade policy that may affect your business. Tariff Section 301 adds another 15% to the current 10% tariff on certain Chinese goods. This will affect all goods received into the United States beginning June 1st. Countrywide works with—though not exclusively with—Chinese factories and as such, this change in policy will affect our business.

For more information on Tariff Section 301, please refer to this [link](#) published by the Federal Register.

Negotiations surrounding the initial 10% tariff, which took place last year, moved back and forth quickly and involved some amendments before the final agreed upon policies took effect. As such, Countrywide is watching the situation very closely and will keep your business informed with any changes that may occur.

As always we appreciate your business and are committed to providing you with a superior customer service experience. Please don't hesitate to contact us with any questions regarding this matter.

Anne Housh
Vice President of Sales
